July 9, 1936

ENGINEERING NEWS-RECORD

A WEEKLY JOURNAL OF CIVIL ENGINEERING

AND CONSTRUCTION PRACTICE

Volume 116

January to June, 1936

McGRAW-HILL PUBLISHING COMPANY, INC.
330 W. 42d St.
NEW YORK CITY

INDEX TO ENGINEERING NEWS-RECORD

VOLUME 116—January to June, 1936

	Page
Jan. 2	1 to 34
Jan. 9	35 to 70
Jan. 16	71 to 110
Jan. 23	111 to 144
Jan. 30	145 to 184
Feb. 6	185 to 234
Feb. 13	235 to 268
Feb. 20	269 to 302
Feb. 27	303 to 336
Mar. 5	337 to 372
Mar. 12	373 to 406
Mar. 19	407 to 440
Mar. 26	441 to 478
Apr. 2	479 to 514
Apr. 9	515 to 548
Apr. 16	549 to 582
Apr. 23	583 to 616
Apr. 30	617 to 650
May 7	651 to 686
May 14	687 to 720
May 21	721 to 754
May 28	755 to 796
June 4	797 to 832
June 11	833 to 866
June 18	867 to 900
June 25	901 to 934

A

AERONAUTICS

Airplanes:
Contractors and WPA chief die in crash n141
Airports:
London airport nearly completed.... n*824
Maintaining airport lawn *833
Hangar:
Santa Monica 200 ft. wingspread hangar n*717
New ocean transport e102

AIR CONDITIONING

A.W.W.A. discusses facts of air conditioning 888
Chicago office building with air conditioning plant *419
Newton, Ia., office building with air conditioning equipment *420
Air Hygiene Foundation of America, Inc.:
First meeting n334
To conduct research 17
Allegheny County Authority:
New personnel appointed n472
Aluminum:
Smithfield St. bridge, Pittsburgh—aluminum stringer failures due to fatigue loading. H. D. Johnston, Jr.. *318
Structural aluminum and fatigue. Frankland Johnson, Templin..... l 709
American Concrete Institute:
Chicago convention 356
Convention program n174
Research and concrete columns..... e361
American Engineering Council:
Rearranges committees n475
Washington meeting n107
American Institute of Consulting Engineers:
New York meeting n138
American Railway Engineering Assn.:
Chicago meeting 428
Manual of approved practice e470
Officers elected at Chicago meeting.... n*436
American Road Builders Assn.:
W. T. Chevalier elected president.... n*139
Cleveland meeting 166, e171
Road Show for 1936..... *177, e170
Student road builders. A. Diefendorf..l 641
To serve the field e102
Washington meeting n613
American Shore & Beach Preservation Assn.:
Daytona Beach meeting n613
American Society for Testing Materials:
Committee actions on metals and concrete 422
Pittsburgh meeting 395
American Society of Civil Engineers:
Columbus meeting n822
Hot Springs, Ark., meeting n644
New York meeting 131
Officers elected n*108
St. Louis Section gives dinner to three engineers n577
American Water Works Assn.:
Awards medals and elects honorary members n439
Conducted tour offered to convention..n404
Illinois Section meeting n610
Indiana Section meeting n611
Little and Ruggles leave association.... n676
Los Angeles Convention..... 887, e892
Los Angeles Hotel fixes plumbing for meeting n792, 879
New Jersey meeting n826
Organization changes announced..... n795
American Wood Preservers Assn.:
Meeting reports on research on termites 291

AQUEDUCTS

Colorado River:
Canal subgrader and finisher..*279, e295
Concrete placing machines line 92 miles of tunnel *876, e892
Design of reinforcement in circular concrete siphons. D. B. Gumensky. *380, e398
East Coachella tunnel holed through. n67
Grouting in the San Jacinto tunnel. C. R. Rankin *661
Precasting record-size pipe *852
Removing fines from sand with air blowers. John Stearns *344
San Jacinto tunnel "wet" e674
San Jacinto tunnel work speeded up by new adit n678
Scrapers unload cement for box cars. 499
Sierra Madre water tunnel holed through n438
Associated General Contractors:
Miami meeting n138
Washington meeting n677
Association of Highway Officials of North Atlantic States:
Atlantic City meeting n298; convention 322
Associations:
Time schedule for speaking necessary..e360
Austin, Samuel, dies n*794
Awards:
C. F. Kettering receives Washington award n139

B

Bankruptcy Act—part of Act declared void.n299
Bates, Onward, dies n543
Beaches—national beach reserves..... 355

BEAMS

Axial compression in concrete beam design. H. E. Eckles..... *632
Concrete beam design. H. E. Eckles....l 926
Flexure theory for reinforced concrete needs revision. L. J. Mensch.....l 641
Shallow concrete beams. H. M. Hadley. 292
Bearings:
Roller bearing design for Buzzards Bay lift bridge span over Cape Cod Canal. E. L. MacDonald *146
Beyer, A. H., dies n614
Blasting:
Norris Dam reservoir basin cleared by demolishing concrete bridges with explosives *806
Bonds:
PWA nets large profits through bond sales 359

BOOK REVIEWS

Analysis of framed structures. Matthews & Soneson 326
Architectural graphic standards. Ramsey & Sleeper 744
Cast iron pipe; its life and service..... 924
Design of concrete structures. Urquhart & O'Rourke 326
Deterioration of structures in sea water, ed. by Dixon & Grose..... 924
Droughts of 1930-34. J. C. Hoyt..... 744
Elementary structural problems in steel and timber. C. R. Young 326
Engineering radiography. V. E. Pullin 326
Epidemics and crowd-diseases. Major Greenwood 924
James Watt, craftsman and engineer. H. W. Dickinson 924
Materials of engineering. H. F. Moore.. 744
Materials testing machines. C. H. Gibbons 326
Modern surveying for civil engineers. H. F. Birchal 168
Old covered bridges. A. M. Jakeman.. 744
Preparation of engineering reports. Agg & Foster 168
Principal electric utility systems in the U. S. 744
Procedure handbook of arc welding design and practice 638
Public land surveys. L. O. Stewart... 168
St. Lawrence deep waterway. C. P. Wright 638
Specifications for design construction alteration and repair of highway and railway bridges by fusion welding... 744
Stahlbau-Kalender, 1936..... 326
Steel dams. O. E. Hovey..... 168
Story of Telford. Alexander Gibb..... 465
Surveying. Harry Bouchard..... 169
Treatise on surveying. Middleton & Chadwick 169
Water rights for irrigation. S. T. Harding 326
Work of the sanitary engineer. A. J. Martin 638

BRICKS AND BRICKWORK

Caneadea Creek dam brick facing eight years after completion *699
Concrete road revamped for new brick surface. R. M. Andrew *127
De-aired brick discussed by N.P.B.A..... 254
Paving brick changes recommended by Committee 921

BRIDGE ACCIDENTS AND FAILURES

Ice and early floods damage bridges..n404
Pittsburgh bridge closed due to ice damage n404
Wooden bridge destroyed by floods in Pennsylvania n*679
Bridge clearances:
Standardization recommendations (A.S.C.E. meeting) 132, e136

BRIDGE CONSTRUCTION

Birchenough Bridge, South Rhodesia, erected of chrome-copper steel in one long span *246
Bridge construction bills signed..... n678
Bridge construction in 1935....e187, *213
Buzzards Bay Bridge over Cape Cod Canal—erecting a 544 ft. lift bridge. W. A. Ellis *148
Canton, Mo., concrete bridge built with cast steel hinges. A. B. Auerbach .*244
Federal aid and bridge purchase..... e791
Foreign countries lead U. S. in welded bridges. LaMotte Grover.....*703, e712
Galveston causeway (unit prices)..... 650
Illinois bridge department organized for increased design demands. W. N. Schroeder 15
Koblenz, Germany, rebuilds bridge with seventy-year old iron 483
Life of concrete bridge floors. Signald Johannesson ..... l 855
Madagascar suspension bridges of chrome copper steel 157
Peened welds in bridge building. A. W. Carpenter ..... l 462
Philadelphia-Camden bridge construction for rapid transit railway. Manley & Harris *811
Underpinning Camden approach. E. R. Albertson *12
Pittsburgh, Smithfield St. bridge—aluminum stringer failures due to fatigue loading. H. D. Johnston, Jr..*318
Stresses on stringers. H. D. Johnston, Jr. ..... l 464
Raquette River, N. Y., bridge of welded trusses. G. L. Dresser *40
Russian bridge develops a nailed timber centering for concrete bridge. E. L. Chlebnikov *563
San Francisco-Golden Gate bridge cables spun at record rate. C. M. Jones. *617, e643
San Francisco-Oakland Bay bridge: Cable spinning. Purcell, Andrew & Woodruff *656
Steel vs. concrete bridge trusses. F. H. Frankland ..... l 135
Tacoma bridge has longest concrete span in U. S. Berry & Runciman....*1, e25
Temperatures in concrete arches in Washington, D. C., bridges. C. R. Whyte *693
Tokyo, Japan, highway bridge of welded cantilever girder type *849
Triborough bridge:
Lift span erected by new procedure..*671
Vermont highway bridge collapse caused by overloading road with gravel. J. L. Davis *841
West Coast highway timber bridges.....*348
Wichita, Kan., uses three types of light metal handrailing. L. K. White...l*743
Windsor, Mass., timber truss bridge and dam built by CCC labor. F. C. Holmes.*526

BRIDGE DESIGN

American Institute of Steel Construction:
8th annual bridge design competition prize goes to C. H. Rosa n792
Buzzards Bay lift bridge over Cape Cod Canal *145, e170
Buzzards Bay lift bridge over Cape Cod Canal—roller bearing design for span. E. L. MacDonald *14
Kankakee River concrete girder bridge designed for continuity. Benesch & Morgan *604
Laredo bridge railings removable in case of floods. J. W. Beretta *121
Middletown, Conn., bridge plan n646
Movable bridge patents discussed by Committee of A.S.C.E. 342
Neches River, Tex., bridge design influenced by hurricanes n*439
Pittsburgh bridge replaces wooden floor with steel mesh. H. S. Ayres *845
Rogue River bridge timber stiffener trusses. Smith & Krausse *484
Self anchored suspension bridge. A. A. Jakkula *464
Howard Mullins ..... l 711
Self-anchored suspension bridge history.. *45
Single span railroad bridge with pinned ends. C. D. Williams 18
Suicides from bridges. Merrill Butler.l 325
Vierendeel welded trusses used for road bridge at Nuth, Holland *4
Welded girder cantilever bridge at Tokyo, Japan *849
West Coast highway timber bridges.... *348
Bridge design. See also Structural design.

BRIDGE FLOORS

Highway bridge floors (A.S.C.E. meeting) 134
Life of concrete bridge floors. Signald Johannesson ..... l 855
Pittsburgh timber bridge floor carried away by flood replaced by steel mesh deck. H. S. Ayres *845

BRIDGE RENEWALS AND REPAIRS

Arkansas City bridge trusses raised 7½ ft. by jacking operation. G. C. Olsen....*320
Brunswick, Me., bridge to be restored..n544
Grand River, Mo., bridge revamped, requiring truss-shifting. G. C. Olsen..*282
Toledo repairs its bridges..... *634, e642
Widening a concrete bridge. Otha Hecathorn l*464

BRIDGES

Arkansas City, Kan.:
Two 130-ft. truss spans raised 7½ ft. by jacking operation. G. C. Olsen..*320
Australia:
Welded bridges since 1927. LaMotte Grover *703
Belgium:
Welded bridges constructed recently. LaMotte Grover *703

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

Brisbane, Australia:
Contract let for cantilever span bridge 805
Canton, Mo.:
Cast steel hinges for concrete rigid frame. A. B. Auerbach .....•244
Cape Cod Canal bridge:
Buzzards Bay lift bridge....•145, e170
Buzzards Bay lift bridge—erecting bridge. W. A. Ellis .....•148
Buzzards Bay lift bridge—roller bearing design for span. E. L. Macdonald .....•146
Chicago:
Outer Drive bridge bids. C. H. Bauer.1 819
Outer Drive project—championing inefficiency e712
Connecticut River Bridge:
Bids to be asked for.....n300
Czechoslovakia:
Welded bridges since 1931. LaMotte Grover .....•703
Davenport, Iowa bridge:
Bridge tolls. F. M. Masters.....1 538
Traffic a thousand a day.....n334
Denmark:
Bridge and road project proposed....n715
Fore River bridge, Mass.:
Bascule bridge opened to traffic....n•859
Germany:
Welded bridges since 1930. LaMotte Grover .....•703
Grand River, Mo.:
Bridge revamped, requiring truss-shifting. G. C. Olsen .....•282
Great Britain:
Welded bridges since 1933. LaMotte Grover .....•703
Kankakee River Bridge:
Concrete girder bridge designed for continuity. Benesch & Morgan....•604
Koblenz, Germany:
Seventy-year old iron re-used in bridge 483
Laredo bridge:
Railings removable in case of floods. J. W. Beretta .....•121
Madagascar:
Suspension bridges of chrome copper steel 157
Middletown, Conn.:
Plan for bridge n646
Neches River, Tex., bridge design influenced by hurricanes .....n•439
New York City:
East River arch bridge proposed in place of tunnel.....n•578
Henry Hudson bridge erection begins.n•716
Triborough bridge act amendment signed by Lehman n858
Lift span erected by new procedure.•671
Lift span erection. W. H. Ellis.... 819
Newark, N. J.:
Pennsylvania R.R. bridge foundations of deep pneumatic caissons .....•901
Norris Dam Reservoir basin:
Basin cleared by demolishing concrete bridges with explosives.....•806
Nuth, Holland:
Vierendeel welded trusses used for road bridge .....•4
Oregon Coast highway bridges.....n•333
Ottumwa, Ia.:
Des Moines River crossing dedicated.n•898
Philadelphia-Camden bridge:
Rapid transit begins across bridge. Manley & Harris .....•811
Underpinning Camden approach of bridge. E. R. Albertson ..... •12
Pittsburgh:
Ickes moves for new contract by Allegheny County Authority n472
Second Ave. bridge timber floor carried away by flood replaced by steel mesh deck. H. S. Ayres.....•845
Smithfield St. bridge — aluminum stringer failures due to fatigue loading. H. D. Johnston, Jr..•318, 1 464
Poland:
Welded bridges since 1929. LaMotte Grover .....•703
Raquette River, N. Y.:
Welded trusses of 150 ft. span. G. L. Dresser .....•40
Rogue River, Ore.:
Timber stiffening trusses for suspension bridge. Smith & Krausse....•484
Russia:
Nailed timber centering for concrete-arch bridge. E. L. Chlebnikov....•563
Welded bridges constructed. LaMotte Grover .....•703
Sabi River, South Africa:
Birchenough bridge opened .....n•68
Chrome copper steel arch spans 1,080 ft. .....•246
San Francisco-Golden Gate:
Cable spinning completed n792
Largest and longest bridge cables spun at record rate. C. M. Jones..•617, e643
San Francisco-Oakland Bay Bridge:
Approach as seen from air n•106; correction n174
Bridge cables. J. A. Blume.....1 293
Bridge takes shape .....n•506
Cable spinning. Purcell, Andrew & Woodruff .....•656
Interurban plans completed for bridge.n296
Pier fender destroyed by fire.....n•577
Pipe on bridge presents design problem 525
Roadway through Yerba Buena Island. n•229
Soil sampler for deep foundation testing .....•804
Yerba Buena tunnel serves as roadway for bridge. Purcell, Andrew & Woodruff .....•111
South Omaha, Neb.:
Handling long, heavy piles. H. P. Treadway .....•838
Sweden:
Welded bridges. LaMotte Grover....•703
Switzerland:
Welded bridges constructed. LaMotte Grover .....•703
Tacoma, Wash.:
Longest concrete span in U. S. Berry & Runciman .....•1, e25
Tokyo:
Welded girder cantilever on highway bridge .....•849
Toledo, Ohio:
Repair program for bridges....•634, e642
Vancouver, B. C.:
First Narrows suspension bridge approved n717
Vermont:
Overloading road with gravel causes bridge collapse. J. L. Davis.....•841
Washington, D. C.:
Calvert St. & P. St. bridges—temperatures in concrete arches. C. R. Whyte .....•693
Wichita, Kan.:
Light metal bridge railings. L. K. White .....l•743
Windsor, Mass.:
Timber-truss bridge and dam built by CCC labor. F. C. Holmes.....•526
Building accidents and failures:
Montreal marque collapses injuring two. n332, n402
New York City apartment house collapses during construction .....n•930, e928
BUILDING CONSTRUCTION
Broadcasting studio added to Chicago Tribune a steelwork problem. Albert Smith .....•914
Building construction in 1935.....e188
Building trusses and secondary stresses. S. T. Carpenter 1 538
Chicago office building construction layout with air conditioning plant....•419
Engineering applied to low cost houses:
Pt. 1, Concrete frame houses.....•349
Pt. 2, Monolithic concrete house. D. S. McBride .....•352
Expansion-joint action in concrete balcony for Fort Myer riding hall.....•251
Frame structures in earthquakes. C. H. Kromer 1 462
Hershey Chocolate Corporation's windowless factory .....•456
House building begins to get technical attention 412
Industry builds again:
Pt. 1, Enclosed acreage.....e360, •337
Pt. 2, Walls, roofs and floors.....•384
Pt. 3, Offices for industry.....•416
Pt. 4, Windowless offices for industry.. •456, e470
Kress Store, New York—reducing secondary stresses in high trussed bents. E. E. Seelye .....•284
Minneapolis armory construction. W. H. Wheeler .....•125
Municipal cyclone cellars e574
Newton, Ia., office building in a one-industry town .....•420
New York City engineers making rock depth studies 449
Owens-Illinois Glass building constructed of solid walls all glass.....•459
Prestressed reinforcement for domed concrete tanks. J. M. Crom.....•555
San Francisco warehouse constructed with roof of three part concrete joist.•558
Skyscrapers from an economic aspect.. 655
Texas rushes its Centennial construction.•488
Thin flatslab floors prove rigid under test. W. H. Wheeler .....•49
Triple insulated house in New Rochelle, N. Y. .....•499
Welded expanded metal framework for office building .....•416
Winter concreting for Toronto factory..•696
Youngstown steel mill office building built with cellular steel floor.....•421
BUILDING DESIGN
Building trusses and secondary stresses. S. T. Carpenter 1 538
Causes of building frame torsion compared. B. M. Dack 1 538
Coal bunkers—suspended bunker design. Higgins, Morrison .....l•818
Coal bunkers—taking account of thrust in suspended bunker design. White & Smith .....•346
Design and theory of the discontinuous-web girder. J. C. Meem .....•623
Design diagram for concrete members doubly reinforced. F. S. Bailey.....l•61
Earthquake design. F. N. Dlouhy.....1 640
Earthquake resistant design. J. J. Creskoff 1 325
Expansion-joint action in a concrete balcony for Fort Myer riding hall.....•251
Flexure theory for reinforced concrete needs revision. L. J. Mensch.....1 641
Kress Store, New York—reducing secondary stresses in high trussed bents. E. E. Seelye .....•284
New York City—problems of the steel framework of the world's largest sign..•603
Rolling grilles protect openings.....582
Skyscrapers from an economic aspect... 655
Stress behavior in steel rigid frames tested by Bureau of Standards.....•313
Wind resistant:
Suction in wind design (A.S.C.E. meeting) 134, e136
Youngstown steel-mill office building built with cellular steel floor.....•421
Building design. See also Beams, Columns, Structural design, Trusses.
Building laws and regulations:
A.C.I. convention adopts new building code 356
Detroit building code receives approval.n438
New York Compensation Law. G. J. Atwell 122
Building repairs and alterations:
Brooklyn Navy Yard relief works program .....•160
BUILDINGS
Chicago:
Broadcasting Studio added to Chicago Tribune building a steelwork problem. Albert Smith .....•914
Office building layout with air conditioning plant .....•419
Cleveland:
Great Lakes Exposition—Hall of Progress .....n•751
Cushing, Okla.:
Municipal diesel power plant .....•809
Industry builds again:
Pt. 1, Enclosed acreage.....e360 •337
Pt. 2, Walls, roofs and floors.....•384
Pt. 3, Offices for industry .....•416
Pt. 4, Windowless offices for industry. •456, e470
Fort Myer riding academy:
Expansion joint action in a concrete balcony. C. B. Gerber.....•251
Hershey, Pa.:
Windowless office .....•456
Lackawanna, N. Y.:
Bethlehem Steel office building of welded expanded framework.....•416
Minneapolis:
State armory construction. W. H. Wheeler .....•125
New Orleans:
Monolithic concrete house construction. D. S. McBride .....•352
Newark, N. J.:
Hospital and high school program rescinded by PWA.....n474
Newton, Ia.:
Office building in a one-industry town.•420
New York City:
Apartment house collapse during construction .....n•930, e928
Kress store has columnless street floor. E. E. Seelye .....•284
Pittsburgh:
Contract awarded for new steel plant.n612
San Francisco:
Warehouse constructed with unusual roof .....•558
Toledo, Ohio:
Owens-Illinois Glass building constructed of solid walls all glass....•459
Toronto, Canada:
Winter concreting for factory.....•696
Washington, D. C.:
Department of Interior building construction .....n•612
Youngstown, Ohio:
Steel-mill office building with cellular steel floor .....•421

C

Cables:
San Francisco-Golden Gate Bridge:
Largest and longest bridge cables spun at record rate. C. M. Jones..•617, e643
San Francisco-Oakland Bay Bridge cable spinning. Purcell, Andrew & Woodruff .....•656
Statistics for major suspension bridges since 1854 859
CAISSONS
Moscow subway construction. I. Gutmann .....•515
Pennsylvania R.R. bridge at Newark, N. J., uses pneumatic caissons for foundations .....•901
Canadian Construction Association:
Hamilton meeting n229
CANALS
All-American Canal:
Contract awarded for placing lining.n365
Excavation half completed 629
Cape Cod Canal:
Government winds in canal dike case.n859
Florida Ship Canal:
Beginning the canal.....•479, e502
Effect of canal on water supplies..•59, e63
Funds voted down.....n434, e432
Investigation proposed by Senate.... n65
More funds must have approval of Congress n576
Save the remnants!.....e608
Senate Committee considers bill.....n748
Senate passes bill n822, e820
Uneconomic according to PWA.....n228
Water supply will not be affected... n26
Panama Canal:
Bill for investigation of means for increasing capacity n678
Subgrader and finisher for large canals. •279, e295
Carey, W. F., becomes N. Y. Sanitation Commissioner 116, n749
CEMENT
Cement industry employment increased under PWA 7
Changes in specifications of cement in 1935 (table). P. J. Freeman 204
Chicago Regional Planning Assn.:
Thirteenth annual meeting.....n678
Cities:
Municipal Bankruptcy Act declared unconstitutional n792

•Illustrated; a, abstracts; e, editorials; l, letter; n, news

Personnel requirements for administering municipal services 734
City manager:
Toledo begins city manager government. n141
City planning. See Planning.
Coal bunkers. See Building design.
Coast erosion and protection:
A.S.B.P.A. meeting n613

CODES

Building:
Building-code delays e712
Detroit building code adopted. J. R. Wolff ..... l 819
Detroit building code receives approval n438
Construction:
Contractors Code Authority to be dissolved n476
Industry:
Dead and buried e24
Cofferdams:
Pickwick Dam uses cofferdams of steel pile cells. S. T. Henry *549

COLUMNS

Bending and direct stress in concrete columns. F. C. Whitney *500
Continuous truss design by moment distribution. T. P. Young *382
Research and concrete columns e361
Compressed air and air tools:
Colorado River Aqueduct—removing fines from sand with air blowers. John Stearns *344
Ice pressure on Russian dam relieved by compressed air 14

CONCRETE

Advances in concrete practice in 1935. P. J. Freeman 204
A.C.I. convention adopts new building code 356
Grand Coulee concrete mixing and placing plant *119
Life of concrete bridge floors. Signald Johannesson ..... l 855
Minneapolis sewer tunnel concrete lining pumped down drilled holes. E. D. Roberts *839
Pickwick Landing Dam concrete plant. H. F. Gough *552
Puzzolanas in concrete. E. W. Scripture. Baily Tremper ..... l 431 l 257
Quality improved in highway construction. W. G. Sloan *71
Rochester, N. Y.—mass production of concrete frame houses *349
Temperatures in concrete arches. C. R. Whyte *693
Watertightness of bond between new and old concrete shown by Lake Spaulding Dam *151

CONCRETE AGGREGATES

Colorado River Aqueduct — removing fines from sand with air blowers. John Stearns *344
Proposed simplified practice for coarse aggregates 665
Connecticut Society of Civil Engineers:
Hartford meeting n834

CONSTRUCTION

Back to work e185
Building Trades unions ratify arbitration plan n506
Business and construction in 1935 (charts and tables) 193
Business side of construction..266, 510, 682, 828
Jurisdictional disputes e24
New York State construction shows upward trend n750
Safety progress e398
Safety progress in building construction. W. G. Wheeler 530
Technique improved in 1935 ..... e192
WPA progress percentages. G. F. Ramirez 500

CONSTRUCTION EQUIPMENT

Augers bore holes for Fort Peck spillway gate in tough shale *37
Batcher for aggregates *754
Bucket:
Hydraulic clam shell *720
Compressor electric driven 864
Concrete placing machines *876
Crusher, double roll *900
Ditcher, small 900
Dragline, walking *720
Excavating machinery used in beginning the Florida canal *479
Excavator, convertible *754
Grader attachment, disc *720
Grader, motor *70
Grapple with four tines *900
Ladder shoe prevents skidding *582
Pipe fitting machine *864
Scale for weighing conveyor loads.... 144
Scarifier 754
Scraper, cable operated 720
Scrapers unload cement from box cars. 499
Screens, vibrating 406
Shovel, self-propelled, for tunnelling..*265
Subgrader and finisher for large canal. *279, e295
Tackle blocks *406
Tamper:
"Leaping Lena" compacts earthfill on San Gabriel dam. Paul Baumann.. *700, e712
Sheepsfoot roller used for stony fill on San Gabriel dam. Paul Baumann. *835
Vibrator for concrete *70
Wrench, pneumatic 900
Construction League:
Back the league e575
Policy Committee endorses public works continuance n542
Washington meeting n228

CONSTRUCTION MATERIALS

Activity in 1935 ..... e188
Building material show at Washington. n895
Cotton mats and fabrics for road building have specifications announced..... n506
Current prices..... 232, 512, 684, 830
High-strength metals for construction service. A.S.T.M. meeting 395
Waterproofing material 864

CONTRACTORS

Arkansas sales tax must be paid by contractors n860
Bids:
Collusive bidding reported by Federal Trade and moved against by President n933
Identical bidding on Bureau of Reclamation contracts stirs protest. n577
Ohio road bidders. C. H. Duncan... l 539
Pre-qualifying is better e856
Calculating unavoidable delays on contract work. J. T. Button 730
Canadian contractor's claim reduced by court n260
Canadian court revalues contractor's damage award n67
Census for contract operations under way e62
Colorado judge decides that contract need not be awarded to lowest bidder.... n333
Connecticut contractor wins damage suit. n933
Tennessee surety case decided by Supreme Court n504

CONTRACTS

Labor relations standards for road construction. O. L. Kipp 95
Metropolitan Builders Association protests PWA contract requirements.... n896, e893
Wage regulation on federal contracts brought up again in new bill..... n362
Walsh-Healey bill for government contracts n931
Council for Industrial Progress:
Seven committees to meet..... n227
Seven study committees named.. n141, e136

D

DAMS

Advance in design and construction of dams in 1935. J. L. Savage *200
Aurora Dam:
Construction of dam on Tennessee opposed n362
Barney Williams Dam:
Thin arch dam for park supply water in Ariz. *725
Boca Dam:
Construction nears as water rights are approved n365
Bonneville Dam:
Blasting out a cofferdam..... n*507
Fishways to cost $3,550,000.. *235, e258
Power agency urged to distribute Bonneville power n676
Power plans n750
Power plans n714
Spillway gate model supplements calculations. R. R. Clark *343
Boulder Dam:
Box car goes down to power house.. n*28
Date of acceptance set n299
Gantry crane to be used n*795
Lake called Lake Mead..... n260
Outlet valve tested n*403
Power generation delayed until fall.. n750
Power transmission line construction rushed 531
Structure turned over to government.. e360
Braeburn, Pa.:
River cuts new channel around dam. n506
Flood damages dam *630
Brazos Dam:
Oil operators use pipe siphons for bypass *562
Calero Dam:
Earthfill dam under construction.. n*27
Caneadea Creek Dam:
Brick facing eight years after completion *699
Cheurfas Dam, Algeria:
Shaky dam tied down with steel cables *286
Chickamauga Dam:
Cofferdam work begins n610
Construction authorized by TVA.... n64
Clear Creek Dam:
Earth dam for Fort Smith, Ark., water supply *240
Conchas Dam:
Bids to be called n792
Connecticut River Dam:
Series of dams suggested for river control n332
Earth dams:
Muskingum soil studies. Knappen & Philippe. Pt. 1 *452, e470; pt. 2 *532; pt. 3 *595; pt. 4.... *660, e675
Proctor method of soil control for dam on Sutherland Reservoir. F. B. Campbell *158
Egypt:
Two Nile dams to be replaced..... 165
Elk City, Okla.:
Earth dam fails during deluge..... n678
Earth fill dam fails from overtopping. *850, e856
Emsworth, Pa., Dam:
Flood damages dam *630
Flashboard design. Stuhrke & Fimbel.. l 819
Flashboards drop controlled by collapsing pipe supports—tests made by National Hydraulic Laboratory. C. A. Betts.. *627
Flashboards with pipe supports. J. H. Gandolfo ..... l 855
Fontana Dam:
Site may go to TVA n542
Fort Peck Dam:
Dredges set new record for output.. n894
Reservoir operation to be guided by snow and stream studies. G. A. Hathaway *728
Diversion tunnels redesigned for faster driving *450
Foundation auger. D. M. Hollingsworth ..... l 397
Handling tough shale at spillway.. *37, e62
Loss of core pool caused by high wind. n933
Low temperature at dam..... n331
Mason & Walsh quit tunnels..... n105
Welding keeps equipment at work. T. B. Jefferson *624, e642
Fresno Dam:
Construction to begin soon n332
Grand Coulee Dam:
Changes in contracting personnel.... n714
Concrete mixing and placing *119
Concrete placing n*646
Construction ahead of schedule..... n896
Contract adjusted because of changed plans n228
Stockpile tunnels formed of laminated timber frames *920
Suit over value of land e929
Hamilton Dam:
Reclamation Bureau to complete dam n*752
Herrin Dam:
Deducing cause of dam break. P. E. Green *556
Hodges Dam, San Diego:
Reservoir dam (unit prices) 649
Imperial Dam:
Steel contract withdrawn by PWA.. n894
Lake Pleasant Dam:
Buttresses strengthened. W. W. Lane. *867, e892
Lake Spaulding Dam:
Twice raised concrete dam shows negligible leakage *151
Magnitogorsk, Russia:
Ice pressure on dam relieved by compressed air 14
Mississippi River:
Dam 26—contract cancelled for locks. n579
Dam work halted by high water..... n543
Mulholland Dam:
Landscaped to meet adverse reaction to dam *769
Neubert Springs Dam:
Silt filling of pond *695
Niagara River Dam:
Permission asked for dam in river... n300
Norris Dam:
Flood test e642
Reservoir basin cleared by demolishing concrete bridges with explosives.. *806
Tennessee flood crest lowered by dam. 496, e502
Transmission line to Muscle Shoals. n*680
Old dams need inspection..... e470
Ontelaunee Dam:
Caverns under corewall set repair problem. Farley Gannett..... *492, e502
Typographical error. Farley Gannett. l 710
O'Shaughnessy Dam:
Raising dam increases storage..... n*282
Parker Dam:
Tunnel progress aided by drill jumbo. *249
Pickwick Dam:
Cofferdam flooded n*579
Concrete plant. H. F. Gough *552
Dredge pump operations. S. T. Henry. *549
Progress on large projects in 1935..... 211
Quabbin Dam:
Hydraulic fill *882
Pneumatic caisson corewall n*823
Red Bluff Dam:
Progress of the work n576
San Gabriel Dam No. 1:
"Leaping Lena" tamper compacts earthfill. Paul Baumann.... *700, e712
Progress at dam. Paul Baumann, Jr. *114
Sheepsfoot roller used for stony fill. Paul Baumann *835
Spillways inadequate e502
Tygart Dam:
Measuring bed rock action under dam. J. E. Deignan *731, e746
Wheeler Dam:
Passes its first flood n*613
Windsor, Mass.:
Bridge and dam built by CCC labor. F. C. Holmes *526
Zerbino Dam, Molare, Italy:
Erosion and rock scour 15
Failure of dam. M. Visentini ..... l 257
Developing machine for positive prints.... 582
Dikes:
Yellow River dike breach repairing. O. J. Todd *735, e746
Drainage:
Current land-drainage research..... 698
Horicon marsh cannot be flooded, court rules n400
Drawing and drawings:
Blue-print machine 144
Drafting instrument designed for accurate work *406
Fort Dodge compiles engineering records. J. L. Parsons..... 629, e642
Lettering aided with roller and cross-section paper. D. D. Molony..... 500

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

DREDGES AND DREDGING
Hydraulic dredge used to build fill for Grand Central Parkway extension..n*141
Pickwick Dam dredge pump operations. S. T. Henry *549
DRILLS AND DRILLING
Foundation auger at Fort Peck Dam. D. M. Hollingsworth 1 397
Jumbo with nineteen drills aids tunnel progress at Parker Dam *249
Rock-drill dust-control unit demonstrated in New York *248
Drydocks:
Callao, Peru, drydock to be built by American contractor.....n933

E

Earle, H. S., dies n29
EARTHFILL
Grand Central Parkway extension—hydraulic dredge to build fill.....n*141
San Francisco's sanitary-fill refuse disposal *314
EARTHQUAKE
Building design for earthquake resistance. J. J. Creskoff.....1 325
Building design for earthquakes. F. N. Dlouhy 1 640
California earthquake survey shows need to strengthen elevated tanks..... 807
Frame structures in earthquakes. C. H. Kromer 1 462
Montana earthquake record *494
Torsional stresses and earthquakes. A. Floris 1 135
Economics Conference for Engineers: S.P.E.E. to have joint session with conference n751
Electric power. See Hydro-electric power.
Electric railways:
Rapid transit begins across Philadelphia-Camden bridge. Manley & Harris..*811
Trends in city transit (charts). J. A. Miller *216
Electric rates:
Electric rate study by Quebec Commission .....n..715
Rate making policy for federal power projects introduced in Congress.....n792
ELECTRIC TRANSMISSION
Bonneville power cost 312
Boulder Dam line begun.....n262
Boulder Dam power line construction rushed 531
Knoxville, Tenn., suit to block transmission line n400
Norris Dam to Muscle Shoals transmission line n*680
Phoenix, Ariz., power line poles made unscalable *803
Electrical applications:
Remote control for hand valves..... 582
Electricity:
New days of power use (charts). L. W. W. Morrow 218
ENGINEERING
Afghanistan needs engineering books. H. H. Walbridge 1 293
Catalog study proposed for engineers. L. C. Alk 1 462
Educators favor uniformity in engineering degrees n751
Fort Dodge compiles engineering records. J. L. Parsons 629, e642
Headlines of 1935 225
Lafayette College celebrates engineering service n472
Schools continue summer orientation courses n862
Science and practice:
City and state planning. Jacob Crane 206
Structural knowledge. Hardy Cross... 199
Dams and hydraulics. J. L. Savage..*200
Sanitary engineering. H. P. Eddy.. 202
Civil engineering research. M. O. Withey 203
Cement and concrete. P. J. Freeman. 204
Engineering Foundation:
Meeting to elect officers n142
Officers elected n104
Engineering Institute of Canada:
E. A. Cleveland elected president.....n*263
Hamilton meeting—professional consolidation plan moves forward..... 289
Engineering Society of Detroit:
Endowment provided for newly organized society n932
New society incorporated n474
Engineering Society of Wisconsin:
Madison meeting n364
ENGINEERS
Agricultural engineers applications filed with Civil Service n546
Civil engineer's position improved in 1935 .....e191
Detroit Civil Service Commission waives residence requirements n645
Engineering colleges appoints new faculty heads n646
Engineers in construction. A. J. Ackerman 1 293
Licensing:
Alabama engineers appointed to registration board n862
Maine begins registration.....n403
Many engineers seek license from board n505
New England engineers reinstated by PWA .....n 27
New York Times recognizes service of engineers e137
Professor and practitioner e102
Salaries higher for leaders than for engineers e294
Title "engineer," proper use sought....n749
Title "engineer," D. B. Steinman....1 256
Title "engineer" opposed as a prefactory designation. W. R. Harris.....1 607
Title "Ingeniero" in Mexico is a mark of distinction. R. B. Brooks, Jr...1 607
Engines:
Cushing, Okla., builds municipal diesel power plant *809
Diesel, controlled combustion..... 720
Erosion:
Highway cut and fill slopes treated to check soil erosion *43
Excavation:
Handling tough shale at Fort Peck spillway *37, e62
EXPOSITIONS
Cleveland exposition plans under way..n334
Cleveland's Great Lakes Exposition—Hall of Progress n*751
Cleveland prepares lakefront site for Great Lakes Exposition n*896
New York City World's Fair:
Bids for the first contract.....n822
Grading contract goes to lower bidder.n862
New York World's Fair planning board organized n793, e790
San Francisco Exposition site preparation n*437
Texas rushes its Centennial Exposition.*488

F

Fires:
San Francisco-Oakland Bay Bridge fender destroyed by fire.....n*577
Fishways:
Bonneville Dam fishways to cost $3,550,000 .....*235, e258
Fletcher, Robert, dies n106
FLOODS AND FLOOD PROTECTION
Appropriation for flood control.....n931
Bills for flood control before Congress. n505, n612, n613, n676, n748, n793, n858, e928
Binghamton Press and floods.....e609
Canada suffers record floods. R. F. Legget *497
Central New York repeats July's floods. S. C. Hollister *496

Sewage treatment plants discussed at meeting 321
Urbana, Ill., meeting 252, e258
Illinois State Sanitary Water Board:
New sanitary districts formed..... n26
International Joint Commission:
Chairman resigns n108
Interstate Sanitation Commission:
Meeting elects officers n332
Iowa University—F. M. Dawson becomes dean n717

IRRIGATION

Colorado restrained from taking water from Laramie River n822
Developments in 1935.....e189
Mexican irrigation program n824
National Resources report indicates need for subsidies n507
Progress on large projects in 1935.... 212
Provo River project to be started under new agreement n473
Texas River work halted by suits.....n402
Water users committee may be delayed..n680
Willacy County—PWA engineer acquitted of conspiracy to defraud government n880
Case remanded to District Supreme Court n67
Case gets under way n610

Irrigation. See also Land reclamation.

J

Jefferson Memorial:
St. Louis approves bill n260

L

LABOR

British Columbia has new wage hour law n751
Building Trades unions ratify arbitration plan n506
Cleveland housing project strike ends..n645
Construction wage rate lowered in Montreal n263
Employing labor under federal rules. J. H. Campion 701
Industrial relations in 1935.....e192
Labor relations standards in road construction. O. L. Kipp 95
WPA progress percentages. G. F. Ramirez 500
Wagner labor act upheld in suit.....n174

•Illustrated; a, abstracts; e, editorials; l, letter; n, news

Walsh Healey bill may pass.....n860, e857
Lafayette College:
Celebrates founding of engineering school n364
Land:
Public control of land use proposed in planning reports 130
LAND RECLAMATION
Allotment for 1937 .....n227
Appropriation for reclamation program..n930
Appropriations reduced by Congress....n894
Central Valley Water Project:
Field work progresses on project.391, e398
Commission proposed to study reclamation projects n546
Fayette project to be resumed n28
General republic revolting against reclamation e820
Moratorium on reclamation payments..e294
Oregon reclamation projects to be opened for homesteading 702
Orland reclamation project bill.....n403
Progress on large projects in 1935.... 212
Reclamation fund bill deadlocked in Congress n792
Report indicates need for subsidies.....n507
Senate expands reclamation work.....n364
Study of reclamation projects included in new bills n434
Larsson, Emil, dies n614
LEVEES
Portsmouth, Ohio River wall again protects city, Stevenson & Wall...*669, e674
Rio Grande Delta flood control *407
Subway for road through Mississippi River levee n*508
Lights and lighting:
New York City—problems of the steel framework of the world's largest sign *603
Polarized light as aid in testing structures 302
Locomotives:
Pennsylvania Railroad's stream lined locomotive n*475
Lohr, Lenox R., made NBC president.... n27
Los Angeles County:
Plans for conservation commission....n718
Low, Fred R., dies n138

M

MAPS AND MAPPING
Federal Power Commission issues two maps 452
Topographic mapping with aerial photos. H. E. Banks 16
Topographic maps important.....e674
Topographic mapping program in Senate resolution n645
Mason, Silas B., dies n*611, e608
McGraw-Hill Publishing Co.—changes in organization n29
Mead, Elwood, dies n*173, e170
Metals:
High strength metals for construction service—A.S.T.M. meeting 395
Midwest Power Engineering Conference:
Chicago meeting n644
Plans expansion program n751
To be held n754
Mines:
Sealing mines to reduce stream pollution *42
Minnesota Federation of Architectural & Engineering Societies:
Minneapolis convention n366
MISSISSIPPI RIVER
Flood control program n172
Flood plan reported favorably.....n400
Norris' proposal for regional development n170
Overton flood control bill signed..n894, e893
Rodney Cut-off, the eleventh cut-off, opened n400
Straightening the Mississippi. G. R. Clemens *269, e295
Models:
Bonneville spillway gate model supplements calculations. R. R. Clark....*343
Monuments:
Steamer Norman sinking commemorated by monument n748
Mosquitoes:
New Jersey control project dropped....n646
N. J. Mosquito Extermination Assn. holds meeting *393
MOTOR VEHICLES
Buses:
Trends in city transit (charts). J. A. Miller *216
Motor Carrier Act e186
Trailers:
Two heavy duty trailers 478
Trucks:
Auxiliary truck transmission 900
California Railroad Commission issues truck rates n475
Muskingum Valley Conservancy District. See Flood Control.

N

Naegeley, John Clement—veteran inspecting engineer. J. B. French.....l 293
National Paving Brick Association:
Columbus meeting 254
National Society of Professional Engineers:
Known by their works e25
Navy yards:
Brooklyn Navy Yard relief-works program *160
New England Sewage Works Assn.:
Hartford meeting n716
New Jersey Mosquito Extermination Assn.:
Atlantic City meeting *393
Plans for meeting n299
New York State Sewage Works Association:
New York City meeting n174
New York State Society of Professional Engineers:
Discuss pending legislation n404
New York meeting n794

O

Oklahoma Society of Professional Engineers:
Vote to join National Society of Professional Engineers n172

P

Pacific Northwest Regional Planning Commission:
Columbia Basin report submitted.....n330
Spokane meeting discusses power markets n365
Paints and painting:
Coatings free from porosity..... 110
Parks:
St. Louis park allotted funds..... n28
Patents:
Movable bridge patents discussed by Committee of A.S.C.E..... 342
PAVEMENTS
Brick pavement processes *72
Brick paving in Chicago. G. F. Schlesinger .....l 710
Chicago's progres in paving discussed at Illinois Society of Engineers.....*378
Oregon cures concrete pavement with sawdust 317
Paving plates designed for concrete surfaces 265
Photographic reproducer 478
Piles and piling:
Handling long, heavy piles for South Omaha bridge. H. P. Treadway *838
PIPES AND PIPE LINES
Bureau of Standards studying backsiphonage in plumbing 622
Bypassing live gas mains for subway construction. William O'Leary.....*373
Colorado River aqueduct precasts pipe of 152 in inside diameter *852
Computing pipe discharges—correction.. 23
Die cast asphalt pipe joints. G. E. Hubbell *815
Digestion-tank piping simplifies sludge and supernatant draw-off. D. M. Vail.*449
Electrolysis in water pipes discussed by A.W.W.A. 890
Fort Smith, Ark., maintains new sources of water supply from mountain with 23 mile pipe *240
Hetch Hetchy water brought in submarine pipe line. L. W. Stocker.....*797
Magnetic detector for pipes 110
Oil operators in building Brazos Dam use pipe siphons for bypass.....*562
Portland, Me., water department makes frost-penetration studies 537
Rubber pipe joint for waste disposal..n302
San Diego welded pipeline (unit prices) 649
San Francisco-Oakland Bay Bridge pipe presents design problem 525
Seattle moves twin wood stave pipes across channel *447
Tuberculation in water pipes discussed by A.W.W.A. 889
Planetarium:
Shell domes of reinforced concrete. Anton Tedesko l*23
PLANNING
A.S.C.E. discusses city planning..... 134
Chicago Regional Planning Assn. meets..n678
City planning in 1935. Jacob Crane.... 206
Detroit zoning e540
New York City proposes revised charter with a planning commission.....n644
State and city planning in 1935. Jacob Crane 206
Planning. See also Water resources.
PORTS AND HARBORS
Canada plans new harbor board.....n476
New York City to have a free port....n227
Post, Andrew J., dies n332
POWER AND POWER PLANTS
Bonneville power agency urged.....n676
Detroit Edison plans new construction..n578
Government leadership urged in power development n612
Midwest Power Conference.....n644
New days of power use (charts). L. W. W. Morrow 218
Platte Valley Public Power and Irrigation district enjoined n546
Power advancement in 1935 .....e189
Power:
See also Hydro-Electric Power and Public Utilities.
Preferred numbers. Robins Fleming..... 846
Pressure cell for granular material:
Huntington & Luetzelschwab.....*20
Providence Engineering Society:
Organized to aid junior engineers....N 891
Public Administration Clearing House:
Office building given to organization....n139
PUBLIC UTILITIES
California companies plan for power interchange n717
Cushing, Okla., builds municipal diesel power plant *809
Detroit Edison Co. plans new construction n578
Duke Power Company's right to question loans challenged by government....n717
New Hyde Park municipal power plant blocked by injunction n362
PWA power loans to cities held constitutional n862
Pittsburgh utility service in flood time 800
PUBLIC WORKS
Appropriations bill does not include five non-military projects n260
Budgeting of public works in 1935.....e190
Federal budget for 1937..... n65
Federal public works to be returned to regular budget 62
Headlines of 1935 225
Jobs at low cost e608
Planned public works on permanent basis for unemployemnt advocated by Ickes.n175
Principles to control governmental expenditure for public works (A.S.C.E. meeting) 131
Public service engineering in 1935....e190
Quebec Province plans relief work.....n750
Recovery, relief and public works.....e186
PUBLIC WORKS ADMINISTRATION
Applications and loans reported to Senate n401
Appropriation for continuing program of non-federal projects n930
Bond sales net large profits..... 359
Conference on ways of expediting projects n260
Florida city loans without referendum.n823
Florida taxpayers must approve loans repayable from taxes n930
Funds for PWA unlikely.....n677
In eclipse? e62
Loans and grants:
Agitation for continuing construction of public works increases n576
Louisiana repeals anti-PWA laws.....n931
Metropolitan Builders Association protests contract requirements....n896, e893
Project engineers to report to state directors n474
Relief bill passes Senate n822
Steel contract on Imperial Dam withdrawn by PWA n894
Tuttle nominated for New York director.n716
PUMPS AND PUMPING
Baltimore's automatic pumping station for water supply. Leon Small.....*756
Los Angeles water pumps automatic in operation 917
North Easton, Mass., maintains automatic water pumping plant 237
Sludge pump for moderate size plants. 70

R

Race track design. Mark Linenthal....*651
Rail and water terminals:
Bayonne, N. J., terminal contract revised n647
Railway consolidation:
Chicago railway consolidation estimated to save ten million a year.....n333
RAILWAY CONSTRUCTION
Canadian Pacific Railway to build part of Quebec railway n897
Mexico to build 385 mile railway.....n894
Quebec railway charter.....n716
Railway freight:
Faster rail service e.171
Railway maintenance:
Battling snow blockades—St. Paul R.R., Rock Island R.R., Illinois Central R.R., Burlington R.R., Northwestern R.R. 308
West Coast roads fight snowslides, Washington, California *354, e361
Railway rates:
New York State lowers freight rates on lumber n472
Railway research:
A.R.E.A. stresses need for research.428, e433
Railway terminals:
Unification of railroad terminals.....n227
Railways:
China's transport trends. A. M. Shaw..*909
RAINFALL AND RUNOFF
Fort Peck reservoir to be guided by studies made of snow and stream. G. A. Hathaway *278
Herrin Dam break caused by settlement due to rainfall runoff. P. E. Green.*556
Snow-rain recorder 900
Weather and water in 1935. M. W. Hayes 223
Reclamation Service. See U. S. Bureau of Reclamation.
Reconstruction Finance Corp.:
Loan offices for disaster loans to be opened n578
Proposed amendments n476
Regional planning. See Planning.
RESEARCH
Civil engineering research in 1935. M. O. Withey 203
Lehigh University's current studies. Inge Lyse *391
Pressure cell for granular material. Huntington & Luetzelschwab.....*20
Temperature Research Foundation organized n577
Reservoirs:
Deer Creek reservoir tunnel to be eliminated n473
RESETTLEMENT ADMINISTRATION
Beauxart Gardens transferred to local corporation n365

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

Bound Brook, N. J., project enjoined by court n748
Greenbelt project plans furthered by suit dismissal n68
New Jersey greenbelt project enjoined. n107

RIVERS
Ogoki River surveys made for project to divert river n825
Rio Grande appropriation authorized. . . . n826
Robert, L. W., Jr., resigns as Assistant Secretary of Treasury n140
Roebling, F. W., Jr., dies n824
Rohrer, Jacob, dies n263

ROOFS AND ROOFING
Industrial buildings—walls, roofs and floors *384
San Francisco warehouse constructed with roof of three-part concrete joists. *558
Shell domes of reinforced concrete. Anton Tedesko 1*23
Suspended roof construction for hydraulic model shelter. H. T. Long *908

Royal Sanitary Institute:
Public health conference to be held in England n932

Rubber:
Synthetic rubber molding powder. 478

RURAL ELECTRIFICATION ADMINISTRATION
Senate passes rural electrification bill. n402
Suspends activties in Virginia n678
Virginia projects to be released n793

S

Sanitation:
Sanitary engineering in 1935. H. P. Eddy 202
Wisconsin security program calls for sanitary engineers n508

Schneider, Edward J., dies n228

Screen for metal casements 265

Seawalls:
British Guiana seawall damaged by heavy seas n544

SEWAGE TREATMENT
Aurora, Ill., plant wins suit over odor nuisance n68, e63
Bio-filtration of sewage at Salinas, Calif. H. N. Jenks *721
Buffalo to use part of lands of Black Rock Harbor for sewage disposal. . . . n678
Calumet sewage sludge incinerator. W. A. Dundas *116, e137
Cleveland adds new plant to its sewage disposal facilities *52
Columbus, Ohio, replaces sprinkling filter with activated sludge plant. 51
Current notes on sewage disposal. . 124, 288, 423, 565, 739, 923
Digestion-tank piping simplifies sludge and supernatant draw-off. D. M. Vail. *449
District of Columbia plant photographed from sky n*474
Durham, N. C., plant furnishes its own power and power for city, too. 727
Hartford, Conn., sewage-treatment works under construction 383
Illinois health board publishes recommendations for treatment plants. . . . 414
Illinois Society of Engineers discusses sewage treatment plants 321
Laughlin clarifier—designing cylindrical walls for concentrated annular loads. A. B. Asch *536
Los Angeles builds sewage works for San Pedro-Wilmington 535
Los Anegles to treat sewage by sedimentation to replace screening n107
Milwaukee gets refund on sewage funds. n138
Milwaukee's enlarged sewage treatment plant. D. W. Townsend *153
Milwaukee sludge payments modified by court order n715
Montreal engineers report on sewage disposal n546
New Brunswick sewage plant to use chemical precipitation *448
Niagara Falls adopts coal-mat filters and centrifuges for plant 245
Nomograph for simplifying sewage treatment calculations. J. R. McComas. *501
Progress of sewage treatment e746
Progress on large projects in 1935. 208
Proportional weir in grit chambers. J. H. Gregory 1 257
Sewage filtration. F. E. Daniels. 1 61
Sewage plant operators course at Rutgers University n812
Safety for plant workers e791
Sewage sampling bottles *39
Sex in sewage e928
Trend of sewage treatment in England. Karl Imhoff *8, e24
Twin Cities' sewage-disposal plan. Frederic Bass *527

SEWERAGE
Advancement in 1936 ..... e191
Chicago Sanitary District:
Gate in Chicago River disapproved by War Department n263
Lock plans approved n476
North Side Sewage plant (unit prices) 866
Reports on water diversion n87

SEWERS
Chicago dedicates West Side interceptor sewer system n263
Flush wave velocities in sewers. Lane & Baldwin *848
Illinois health board publishes recommendations for treatment plants. . . . 414
Minneapolis sewer tunnel concrete lining pumped down drilled holes. E. D. Roberts *839
Seattle has wood sewer e136
Seattle moves twin wood stave pipes across channel *447

Ships and shipping:
San Francisco's dock facilities for serving ships with water 776

SILICOSIS
Call for conference to plan campaign against silicosis e360
Health authorities declare silicosis develops slowly n401
House Labor Committee asks silicosis investigation n296
New River development tunnel — contractor replies in hearing n261
New River project — silicosis hearings continued n140
New River project—silicosis testimony. . n172
New River project—wild silicosis tales reach Congress n104, e103
New York silicosis law would require control devices n330
New York State hearings on silicosis laws n436
New York State mandatory dust control e892
New York State passes three silicosis bills n862
New York State silicosis legislation. . . e747
Rock-drill dust control unit demonstrated in New York *248

SILT
Earth-handling problem e747
Neubert Springs dam pond 85% filled with silt in 15 years *695

Siphons:
Colorado River aqueduct—design of reinforcement in circular concrete siphons. D. B. Gumensky *380, e398
Smith, J. Waldo, memorial unveiled. n*932
Smoke abatement activities in Hudson County, N. J. 558
Smoke effects in cities 250

SNOW
Battling snow blockades in Minnesota, Wisconsin, South Dakota, North Dakota, Iowa, Illinois, Ohio, Michigan, St. Paul R.R., Rock Island R.R., Illinois Central R.R., Burlington R.R., Northwestern R.R. *303
Snow and ice in U. S. during this winter n331
Washington passes filled with drifting snow n*365
West Coast roads fight snowslides, Washington, California *354, e361

Soil Conservation Service:
Begins silt and erosion studies n108

SOIL MECHANICS
Advancement in 1935 ..... e188
Arching in sands. Karl Terzaghi. *690, e712
Building a new art e63
Device for determining soil consolidation. W. P. Kimball 1*324
Hydrostatic uplift e929
Muskingum soil studies. Knappen & Philippe, pt. 1 *453, e470; pt. 2 *532; pt. 3 *595; pt. 4 ..... *666, e675
New York State Planning Council to study soil conservation n366
Correction. T. T. Knappen 1 711
Muskingum project uses new instruments for soil testing. Glennon Gilboy *732, e746
Portland, Me., water department makes frost penetration studies 537
Preconstruction studies for roadbuilding. J. O. Morton *92
Proctor method of soil control for rolled-fill dam on Sutherland Reservoir. F. B. Campbell *158
Resisting strength of foundations. Middlebrooks, Knappen & Philippe. 1 926
Soil-plasticity needle. C. A. Hogentogler, Jr. 1*463
Soil sampler for deep foundation testing on piers of San Francisco-Oakland Bay bridge *804
Soil sampling progress e820
Soil tests and foundation design. W. W. Moore 1 673
Tests to determine hydrostatic uplift. Karl Terzaghi *872

Soil Mechanics & Foundation Engineering:
International conference to be held. . . . n27

Spalding, Col., George R., named for promotion n263

Springs:
Mineral springs development by Missouri City 392

STANDARDIZATION
A.S.T.M. committee actions on metals and concrete 422
Engineering and science symbols to be compiled 58
"Preferred numbers." Robins Fleming. 846

STEEL
Aluminum-coated steel developed for construction 487
Broadcasting studio added to Chicago Tribune a steelwork problem. Albert Smith *914
Caustic embrittlement of steel accelerated by silicates 379
Chrome copper steel used in Madagascar suspension bridges 157
Increase in price expected n718
New York City—problems of the steel framework of the world's largest sign. *603
Rust-resisting steels. J. G. Shryock. . 1 23
Steel for turnbuckles. R. F. Legget. . 1 641
Structural alloy steels (A.S.C.E. meeting) 133
Welded expanded metal framework for office building *416

Stevens, John F., honored at New York Engineers Club n332

Stresses:
Steel rigid frame member set up for testing at Bureau of Standards. *313

Strobel, Charles, dies n544

STRUCTURAL DESIGN
Analysis by moment distribution aided by iteration. A. Floris *922
Cylindrical walls designed for concentrated annular loads in sewage works. A. B. Asch *536
Early concrete trusses. J. R. Fenstermaker 1 711
Engineer's stake in houses. M. Kimball. 1 22
Indeterminate truss design methods simplified. Albert Haertlein. *816
Lehigh University's current studies. Inge Lyse *391
Rigid frame design. Weiskopf & Pickworth 1*462
Rigid frame design by elementary mechanics. C. D. Williams 18
Structural analysis is geometry. Otto Gottschalk 1 325
Structural knowledge reviewed for 1935. Hardy Cross 199
Welded structure design for dynamic loads. O. E. Hovey *310

SUBWAYS
Moscow subway. I. Gutmann. . *515, e540
Moscow subway highlights. C. N. Pinco. *521
New York City:
Eighth Ave. subway:
Design and theory of the discontinuous-web girder. J. C. Meem. *623
Hazard of live gas mains in construction. William O'Leary *373
Opens new section in Brooklyn. n545
Sixth Ave. work to begin in March. . n262
Voted approval of Sixth Ave. subway contract n229

SURVEYS AND SURVEYING
Benchmarks should be preserved. H. S. Rappleye 1 292
Fort Dodge compiles engineering records. J. L. Parsons 629, e642
Standard plane coordinate system fixes the geographic position of every survey. Philip Kissam 697
Surveying also important. R. D. Comstock 1 22
Sweep-float for checking depths in navigable channels. V. H. Donaldson. *50
Symbols and abbreviations used by engineers and scientists to be compiled. . 58

T

TANKS AND STANDPIPES
California earthquake survey shows need to strengthen elevated tanks. 807
Gasoline storage tank floated to new location 250
Prestressed reinforcement for domed concrete tanks. J. M. Crom *555

Taxation:
Florida taxpayers must approve PWA loans repayable from taxes. n930

TENNESSEE VALLEY AUTHORITY
Alabama Power lines taken over. n677
Birmingham power companies file suit against TVA n826
Erosion control technique *43
Lilienthal reappointed director. n749
Moving equipment n677
Personnel changes n363
Regional development work. S. T. Henry 238, e258
Report goes to Congress n504
Supreme Court decision holds TVA may transit navigation dam power. . n297, e295

TVA. See also Dams—Chickamauga, Norris Pickwick, and Wheeler.

Termites:
A.W.P.A. reports on research on termites 291

Testing:
Polarized light as aid in testing structures 302

Texas Society of Professional Engineers:
Organization at San Antonio n299

Thompson, Wallace, dies n66

Tires—traction treads for pneumatic tires. *265

TRANSPORTATION
China's transport trends. A. M. Shaw. . *909
Florida Engineering Society discusses commodity transport cost n580
Progress on large projects in 1935. . . . 214
Regulating transport. J. S. Worley. . . . pt. 1 837, e 856; pt. 2 881; pt. 3 918
Trends in city transit (charts). J. A. Miller *216
Yale University offers transportation fellowships n363

TRUSSES
Continuous truss designed by moment distribution. T. P. Young *382
Early concrete trusses. J. R. Fernstermaker 1 711
Indeterminate truss design methods simplified. Albert Haertlein *816
Reducing secondary stresses in high trussed bents. E. E. Seelye. *284
Steel vs. concrete bridge trusses. F. H. Frankland 1 135

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

TUNNELS
Colorado River Aqueduct:
Concrete placing machines line 92 miles of tunnel *876, e892
East Coachella Tunnel:
Tunnel holed through for California Water District n67
Sierra Madre water tunnel holed through n438
San Jacinto tunnel "wet" e674
San Jacinto tunnel work speeded up by new adit n678
San Jacinto tunnel grouting. C. R. Rankin *661
Delaware River Tunnel:
Plans approved n506
Fort Peck Dam:
Diversion tunnels redesigned for faster driving *450
Mason & Walsh quit diversion tunnels n105
Midtown Tunnel, N. Y. C.:
Bids on ventilating building received.n507
Ventilation building contract awarded.n229
Minneapolis:
Sewer tunnel concrete lining pumped down drilled holes. E. D. Roberts..*839
New York City:
Battery-Brooklyn plans submitted ...n714
Battery to Brooklyn tunnel approved.n860
East River Tunnel:
Allotment approved by president.. n64
Bill fails to pass legislature....n749
Funds available n403
New River Project:
Contractor replies n261
Silicosis hearings continued n140
Silicosis testimony n172
Wild silicosis tales reach Congress.. n104, e103
Oakland, Calif., Broadway highway tunnel work abandoned by contractor...n933
Parker Dam tunnel driven with aid of drill jumbo *249
Yerba Buena Tunnel:
Of record size and serves as traffic lane for Oakland Bridge. Purcell, Andrew & Woodruff *111, e136
Roadway to San Francisco-Oakland Bay bridge n*229
Typhoid fever:
Wisconsin had no typhoid deaths in 1935 from water 907
